

THE NORWEGIAN NATIONAL OPERA AND BALLET

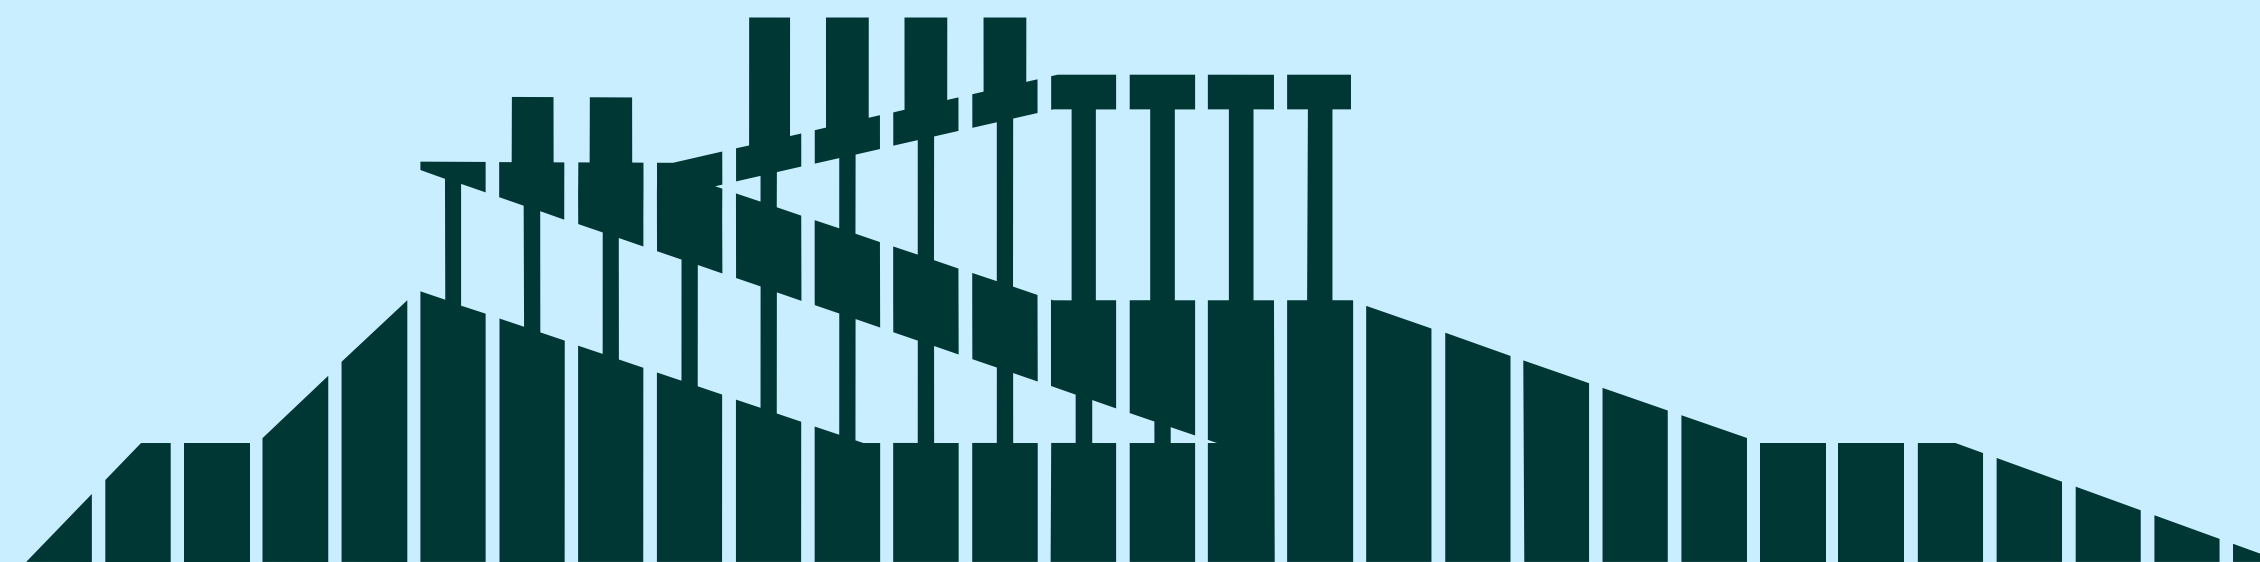

TOWARDS 2030

Opera and ballet move, enrich, and challenge an ever-growing number of people. Our art forms offer unique sensory experiences that provide meaning and unite us across time and space.

Our mission is to further develop these art forms, elevate them to new heights, and bring them to a large and diverse audience. We will carry out our mission in a sustainable manner and collaborate widely both nationally and internationally. We will take care of our opera house, which is specially designed for opera, ballet, concerts, and unique encounters between

people, hall, and stage. We will ensure that our organization continues to grow as an artistic force for the future.

In a world marked by unrest, uncertainty, rapid change, and fleeting digital connections, we offer a place where people can find peace, reflection, presence, and experiences that challenge and create debate. Through what we create, we invite to dialogue and a more open, engaging, and inclusive community. Together, through great opera and ballet experiences, we strengthen both individuals and our society.
